

Dear Dr. Godawa,

I would like to share my thoughts on your class, which was a truly positive experience for me. I believe that the relationship between teachers and students fundamentally determines how deeply we can engage with a particular topic. When a teacher's attitude is open, supportive, and inspiring, it can provide tremendous motivation for students not only to develop an interest in the subject but to genuinely enjoy it as well.

Your class was particularly engaging and enjoyable for me. I must admit, at first, I was a bit surprised by your teaching style, but I quickly realized that it is precisely this unique approach that makes the material both entertaining and memorable. It was not only captivating but also highly valuable and I feel I have learned a lot from it.

For me, it is crucial that a teacher not only conveys knowledge but also instills a sense of enthusiasm in students about the subject. Your attitude and dedication are exemplary and I am confident that many students have gained new perspectives or motivation through your teaching.

I sincerely hope I will have the opportunity to attend more of your classes in the future and to continue learning from you. Thank you for your work, your inspiration and for presenting the material in such a special way!

Best regards,
Alexa Falbian
